*Finding a hotel room is easy. Simply go on the Internet or use your smartphone and voila! You're booked. But if you are only interested in new hotels, then that's a different story. Luckily, you have us. And we're obsessed with new hotels. Here's a list of hotels that have opened or are opening this month (and a few that aren't going to make it.) ### REOPENINGS

# MOSAIC HOTEL

BEVERLY HILLS

**THE MOSAIC BEVERLY HILLS:** This newly independent but always intimate Beverly Hills hotel (it has just 49 rooms) underwent a two-month, multi-million renovation and will now unveil its brand new look by **June 16**. Currently, the hotel--which has joined the Preferred Hotels & Resorts collection in their Lifestyle grouping--is offering guests a special "Project Polish Reveal" discount of 20 percent off room rates. (Use code Mosaic20.) We found room rates for \$408 (before taxes) in June. **UPDATE:** The hotel has actually pushed its opening date to July 1.
